Summary of qualifications

- Fully licensed clinical psychologist in private practice currently providing assessment and empirically-supported treatments for child and elder abuse, Post Traumatic Stress Disorder (PTSD), pain disorders, mood disorders, substance dependence, insomnia, and traumatic brain injury to civilians, active-duty service members, veterans, and their dependents
- Provision of forensic evaluations for the Texas Department of Family and Protective Services
- Conduct court-ordered assessments, evaluations, consulting, and therapy through the Texas Department Family and Protective Services
- Certified in Prolonged Exposure, Cognitive Processing Therapy, and Cognitive Behavioral Couples Therapy for PTSD
- Developed the evidence-based training track for UTHSCSA psychology intern and psychiatry residents with an emphasis on behavioral medicine and PTSD treatment.
- Extensive supervision and training experience with UTHSCSA psychology intern, postdoctoral fellows, and psychiatry residents
- As the local suicide prevention coordinator, responsible for development and management of suicide assessment and management standard operating procedures, training, and supervision of STRONGSTAR research and clinical staff
- Extensive experience with the evaluation and treat of a wide range of psychological and medical disorders in civilians, active-duty service members, and veterans to include comprehensive psychological evaluations, psychological and neuropsychological testing, and differential diagnosis in accordance with DSM-IV-TR using individual, couple, and group treatment modalities
- Experience in providing behavioral health care to service members in primary care setting
- Author or co-author of multiple peer-reviewed articles, book chapters, and conference presentations covering combat-related mental and physical trauma, health disparities, suicide, chronic pain, and psycho-oncology
- Graduated from APA accredited doctoral and psychology internship training programs
- Completed two-year postdoctoral fellowship with the STRONG STAR Research Consortium specializing in the treatment of PTSD in military and civilian populations

Licensure/certification

Licensed Psychologist

Texas State Board of Examiners of Psychologists
No. 35185

EMPLOYMENT HISTORY

Private Practice and Consulting

Mental Health, PLLC	April 15, 2014 – present	Valiant
	Licensed Psychologist	
	219 E. Locust Street	
	San Antonio, Texas 78212	

- Provide empirically-supported treatments to individuals, couples, and families in a private practice setting
- Conduct psychological and forensic evaluations through the Texas Department of Family and Protective Services
- Provide recommendations regarding conservatorship, psychiatric services, in addition to court testimony regarding cases involving child abuse and neglect
- Provide court testimony in conservatorship determination cases

Faculty appointments

August 1, 2012 –	Assistant Professor
October 8, 2015	STRONG STAR Research Consortium

University of Texas Health Sciences Center
 Division of Behavioral Medicine
 Department of Psychiatry- Mail Code 7747
 7550 IH10 West, Suite 1325, San Antonio, Texas 78229

- As a research therapist, my primary responsibilities include the provision of Prolonged Exposure, Cognitive Processing Therapy, and Cognitive Processing Couples Therapy across various randomized clinical trials at various military installations. As an Independent Evaluator, I administer and interpret psychological, personality, and neuropsychological assessments, which include the PTSD Symptom Scale Interview (PSSI), Clinician-Administered PTSD Scale (CAPS), Automated **Neuropsychological Assessment Metrics (ANAM)**, Columbia-Suicide Severity Rating Scale (C-SSRS), and Suicide Attempt and Self-Injury Interview (SASII).
- As the local suicide prevention coordinator, my responsibilities include the development and management of suicide assessment and management standard operating procedures, assessment, training, and supervision of STRONGSTAR research and clinical staff. My research responsibilities include grant and manuscript writing, submission and management of institutional review board documentation, and management of a wide variety of research projects in the areas of PTSD and suicide prevention.
- My clinical duties include 1) provision of care in a primary care setting which involves formulating diagnostic and treatment recommendations during brief encounters, 1-4 session brief intervention implementation, and supervision of predoctoral residents, postdoctoral fellows, and junior faculty, and 2) provision of time-limited behavioral health interventions for chronic pain, insomnia, obesity, and psychiatric conditions.

 Supervisor: Alan L. Peterson, Ph.D. ABPP
 Supervisor Phone Number: (210) 562-6700

STRONG STAR is a multi-disciplinary and multi-institutional research consortium funded by the U.S. Department of Defense (DoD) to develop and evaluate interventions for combat-related posttraumatic stress disorder (PTSD) and common comorbidities in active-duty military personnel, recently discharged veterans, and their dependents in individual, couple, and group treatment modalities. As a research therapist, my primary responsibilities include the provision of Prolonged Exposure, Cognitive Processing Therapy, and Cognitive Processing Couples Therapy across various randomized clinical trials at various military installations. As an

Independent Evaluator, I administer and interpret psychological, personality, and neuropsychological assessments, which include the PTSD Symptom Scale Interview (PSSI), Clinician-Administered PTSD Scale (CAPS), Automated Neuropsychological Assessment Metrics (ANAM), Columbia-Suicide Severity Rating Scale (C-SSRS), and Suicide Attempt and Self-Injury Interview (SASII). As the local suicide prevention coordinator, provide suicide assessment, management, training, and supervision of STRONGSTAR research and clinical staff. My research responsibilities include grant and manuscript writing, submission and management of institutional review board documentation, and management of a wide variety of research projects including PTSD and suicide prevention.

June 16 2009 Psychology Intern
 - July 18 2010 Audie L. Murphy VA Hospital
 7400 Merton Minter Blvd 116B
 San Antonio, Texas 78229
 Training Director: Emma Mata-Galan, Ph.D.
 Training Director Number: (210) 210-617-5121
 Sequence of rotations (Supervisor): Neuropsychology (Robin Hilsabeck,
 Ph.D.), Post-Traumatic Stress Disorder (Hector Garcia, Psy.D.), Primary
 Care (Crystal Pearson, Ph.D.), Long-Term Individual Psychotherapy
 (Jeffrey Dersh, Ph.D.)

Responsibilities for the neuropsychology rotation included clinical interviews, review of medical reports, cognitive and personality testing, feedback, and implementation of treatment services on an outpatient basis. Referrals came from medical, surgical, and psychiatric treatment programs. Activities on the Post-Traumatic Stress Disorder rotation included providing time-limited individual and group therapy including Cognitive Processing Therapy (CPT) and Prolonged Exposure (PE). Responsibilities for the Primary Care rotation included brief therapy, group therapy, group medical appointments, and services for diabetes, chronic pain, and psychiatric disorders in a consultative role to a primary care clinic, which utilizes the behavioral health consultation model. Requirements for individual therapy include intensive supervision of a long-term therapy client using a dynamic orientation.

August 1 2008 Academic Student Appointment
 - May 29 2009 Fibromyalgia Clinical Research Center
 Indiana University, Department of Medicine,
 Division of Rheumatology
 & IUPUI Department of Psychology
 Indiana University School of Medicine
 714 N Senate Avenue, EF250
 Indianapolis, IN 46202
 Supervisor: Silvia M. Bigatti, Ph.D.
 Supervisor Phone: (317) 274-6754

Enhanced therapeutic skills by working with a chronic pain population and learned to effectively use Cognitive Behavioral Therapy (CBT) for management of pain symptoms using the *Managing Chronic Pain: A Cognitive-Behavioral Therapy Approach* manual by John Otis as part of a pilot study (*A Pilot Study on the Use of Nociceptive Flexion Reflex for Fibromyalgia*). Conducted 6 CBT-based phone interviews with each of 15 patients over a 6-week time period. Outcome assessments (i.e., self-report symptom questionnaires, plasma neuropeptide levels and NFR) were performed at baseline, week 6 and week 12. Met weekly with supervisor and reviewed multiple audiotaped CBT sessions and developed fidelity assessment.

May 2008 Practicum Student
 - September 2008 Complete Life Psychosocial Oncology Team
 Indiana University Simon Cancer Center (IUSCC)
 535 Barnhill Drive
 Indianapolis, IN 46202
 Supervisor: Shelley Johns, Ph.D.
 Supervisor Phone: (317) 630-7690

Worked as a member of a multi-disciplinary team of psychologists, psychiatrists, social workers, nurses, and oncologists in the psychosocial management of cancer. Provided individual counseling to cancer patients and family members in inpatient and outpatient settings. Conducted medication screenings for a psychiatric nurse practitioner. On-call at all times for crisis intervention. Assisted patients with adjustment to illness, management of treatment side effects, and preparation for future medical procedures. Maintained clinical hours at outpatient clinic and made rounds for patients at the hospital for extended chemotherapy and treatment lasting over several weeks. Participated in weekly individual and biweekly group supervision. Developed cognitive behavioral and general therapeutic skills by providing counseling to cancer patients and their families. Met weekly with supervisor and psychosocial team for independent and group supervision.

September 2007 Practicum Student
 - May 2008 Larue D. Carter Memorial Hospital
 2601 Cold Spring Rd
 Indianapolis, IN 46222-2202
 Phone (317) 941-4050
 Supervisor: Joan Farrell, PHD

Worked with specialized unit for Borderline Personality Disorder comprised of long-term psychiatric inpatients. Conducted psychiatric evaluations and individual therapy focused on distress management and coping. Led or co-facilitated Psychoeducation, Schema Therapy, Borderline Personality Disorder Awareness, Skills, and Empowerment (BASE), Goal Setting, and Interpersonal Skills groups. Weekly supervision was in both individual and group format. Participated in assessment, treatment planning, and weekly multidisciplinary rounds with

psychiatrists, psychologists, social workers, and nurses. Attended multidisciplinary treatment team and community meetings. Developed applied behavioral treatment plans and consulted with nursing staff. Received training in personal safety and safely neutralizing aggressive patients. Met weekly with supervisor to review treatment plans, report writing, and prepare for group therapy sessions.

June 2006 Practicum Student
 - January 2007 Indiana University, Department of Medicine
 Division of Rheumatology
 & IUPUI Department of Psychology
 Supervisor: Silvia M. Bigatti, Ph.D.

Enhanced therapeutic skills by working with a chronic pain population and used Motivational Interviewing (MI) to encourage exercise. Participated with rheumatologists and physical fitness instructors to create tailored exercise programs for women with fibromyalgia who were considering using exercise to facilitate pain management. Conducted 6-7 MI-based phone interviews with each patient over a 6 month time period. Six months follow-up data was collected on patient adherence to exercise and changes in pain. Met weekly with supervisor and reviewed multiple audiotaped MI sessions.

September 2005 Practicum Student
 - December 2006 Psychiatry Department
 Indiana University Hospital, Indiana School of Medicine
 Indianapolis, IN
 Supervisor: Dan Rexroth, Psy.D.

Enhanced skills in assessment on an outpatient basis. Conducted clinical interviews, test administration using a battery of neuropsychological assessments (ex. WAIS-III, WMS, and CERAD), data interpretation, and report writing for diagnosis, treatment planning, and pre-surgical evaluation. Assisted in feedback sessions. Clients ranged in age from 18 to 91 years. Met with supervisor weekly to review previously prepared integrative reports for referring physicians and discuss didactic reading assignments.

Research experience

August 2011 – VMED Scholar
 present Mentors: Cindy Claasen, PhD, ABPP
 Alan Peterson, PhD, ABPP
 Craig J. Bryan, PhD, ABPP

Scholar: Created Academic Development Plan, collaborated on suicide-specific research projects, and attended weekly didactics under the supervision of suicide researchers.

June 2011- National Institute of Health LRP Fellow

Present University of Texas Health Sciences Center San Antonio
Supervisors: Alan Peterson, PhD, ABPP
Craig J. Bryan, PhD, ABPP

Investigator: Researching the predictive validity of the Implicit Association Test of Suicidality (IAT-S) among active duty military service members in conjunction with the STRONGSTAR Research Consortium and University of Texas Health Care System at San Antonio.

August 2007 Department of Psychology, IUPUI
- May 2009 Health Psychology Lab
Chair: Silvia M. Bigatti, Ph.D.

Dissertation Research: My dissertation examined the illness representation of cancer among Hispanics. Examination of the influence of cultural, intrapersonal, and demographic determinants on illness representations of cancer will be explored. My dissertation was defended in May 2010. I am responsible for all aspects of data collection, scoring, and analysis. Much of the data collection will be in Spanish.

January 2006 Department of Psychology, IUPUI
- May 2009 Health Psychology Lab
Supervisor/Principal Investigator: Silvia M. Bigatti, Ph.D.

Grant Manager: Managed National Cancer Institute funded study investigating breast cancer patients and their spouses (*Dyadic Analysis to Explain Distress in Couples*). Questionnaire preparation, collection, coding, entry; follow-up of participants for complete data and payment; IRB; data cleaning, preparation, and analyses; chart review for collection of data. Supervision of bachelor's and master's level research assistants.

August 2006 School of Nursing
- August 2008 Indiana University School of Medicine
Supervisor: Silvia M. Bigatti, Ph.D.
Kim Wagler-Ziner, RN, Ph.D.

Behavioral Oncology Recruiter: Recruited breast cancer patients for quality of life research studies at the Indiana University Cancer Center funded by the National Cancer Institute during regular oncology clinics. Studies investigated quality of life among young and older breast cancer survivors, sexual function of couples coping with cancer, hot flashes, and couples adjustment to cancer. Collaborated with PIs to determine the most efficient and effective recruiting mechanisms in various clinical settings.

January 2006 Department of Psychology, IUPUI
- August 2007 Chair: Silvia M. Bigatti, Ph.D.

Master's Thesis Research: This study compared depression levels between older Mexican-American caregivers and noncaregivers while controlling for confounds identified but not controlled in past research. Results suggested that even after controlling for age, gender, socioeconomic status, self-reported health, and acculturation, caregivers reported higher scores on the CES-D and were more likely to score in the depressed range than noncaregivers. Caregiving status, health, and caregiver burden were found to significantly predict depression scores. This study suggests that the development of interventions for this population at risk of high rates of depressive symptoms is imperative. This manuscript was accepted for publication in the APA journal *Cultural Diversity and Ethnic Minority Psychology* (2010).

Teaching experience

- Fall 2012 – present Supervisor and Proctor: Department of Psychiatry, UTHSCSA
Developed an evidence-based track for psychology and psychiatry residents, which emphasizes research-based approaches to treatment of combat-related psychiatric disorders. Provide weekly supervision to assigned residents.
- Fall 2012 - present Guest Lecturer: Department of Psychiatry, UTHSCSA
Guest lecture on the topic of anxiety and CBT Seminars for psychiatry residents
- Fall 2012 - present Guest Lecturer: Department of Psychology, University of Texas at San Antonio
Guest lecture on the topic of suicide in the military for doctorate level students.
- Fall 2011-present Adjunct Faculty: Department of Psychology, University of the Incarnate Word.
Instructor for multiple undergraduate psychology courses including Introduction to Psychology, Health Psychology, and Human Sexuality utilizing both in-class and on-line instructional tools.
- Spring 2009 Stress & Health (B365) Instructor: Department of Psychology, IUPUI.
Provided 48 undergraduates with an introduction to health psychology utilizing both in-class and on-line instruction using Oncourse. This included management of discussion forums, online assignments, gradebook, and dissemination of effective and useful communication in a timely manner. Mean global rating score 4.65 out of 5.
- Fall 2007 Seminar in Teaching Psychology: Provided doctoral students with an introduction to important theories of teaching and focused on the

practicalities of how to implement theories of teaching as well as how to appropriately assess student knowledge. The course also reviewed how to help motivate students, generate creativity and discussion within the classroom, and set appropriate boundaries/structure within the classroom.

Spring 2006 &
Indianapolis
2007

Graduate Teaching Assistant: Department of Psychology,

University – Purdue University Indianapolis. Served as graduate assistant for a psychology capstone and Stress and Health courses. Duties included lecturing on research methodology and grading assignments and providing feedback in a timely manner. Effectively managed online components of the course including, but not limited to, discussion boards, grade book, and instructional materials. Supervisor: Silvia M. Bigatti, Ph.D.

Fall 2006

Preparing Future Faculty (PFF) Participant: This program prepares future faculty members by training them in teaching strategies and the use of technological advances for assisting in teaching. Grant writing preparation and submission programs are also provided, as well as navigation of the

Published manuscripts
